

Lakeville is creating a new Master Plan!

A master plan is an important long-range municipal planning document that helps manage future physical growth and provides a guide for public policy and decision making. It can help a community promote orderly and predictable development, set priorities for developing and maintaining infrastructure and public facilities, protect environmental resources, and provide clarity to property owners, developers, and permitting authorities.

The Master Plan Implementation Committee is working with Southeastern Regional Planning and Economic Development District (SRPEDD) to develop this new master plan and when complete, **Lakeville 2030** will help guide the future for the next 10 years.

How to Participate!

During this process, Town officials and SRPEDD will be at a number of community events, such as, the Spring Town Meeting, the Arts Council's Outdoor Concert Series, the annual Arts & Music Festival, and others to meet and share ideas with you. In addition, there will be a series of public workshops held throughout the process focused on items such as land use, housing, open space, transportation, and others.

Help us ensure that our future looks and feels the way you think it should – we are eager to hear from you!

Please take a few minutes to visit the project webpage (www.srpedd.org/Lakeville-Master-Plan) for more details about the public events and how you can participate! Also, follow the Lakeville Master Plan facebook page (www.facebook.com/LakevilleMasterPlan)!

Points of Contact:

Thank you!

Master Plan Implementation Committee

LAKEVILLE MASTER PLAN COMMENT CARD

Please submit your comments relating to the Lakeville Master Plan:

- What are the top issues for the Town's future?
- Do you have suggestions for the public input process?
- Any general questions?

You may also provide input via the project website, Facebook, or email (see below).
All comments will be collected and added to the public record.
