Welcomed Dan Hopkins to Open Space Committee as member from the Park Commission

Minutes for October 14, Open Space Committee, November 1, 2010 meeting with the Planning Board re Horsley-Witten code reform proposals, and November 4, Open Space Committee were read and approved.

Discussion re giving up part of a CR to allow Island Terrace to build a new septic system. They have offered to give the town \$100,000 for one acre of land. CR's are very specific as to what you can and cannot do. This would require a vote of the State Legislature. Also, all land disturbed at Betty's Neck requires the involvement of the MA Historical Commission. Another issue is that this arrangement would also involve crossing the private Decas property.

No objections raised to the subdivision plan for Gillian Drive.

Discussion of a new Outdoor Lighting General By-law crafted by Mike Renzi. Copies of draft given to members for review at next meeting.

Open Space and Recreation Plan 2011 has been sent to Town boards and commissions for review and comments. Plan is now on the Town website with color maps in place.

Revisions need to be made to Table 9. An explanation needs to be included as to why we don't/can't use the school ball fields. Remove the school fields from Table 9.

We need American Disabilities Act letter for Town parks and Betty's Neck.

Assessors document re open space parcels is being prepared.

The Maxim CR has finally been signed and recorded.

No news re Phase 2 of the Taunton River Watershed Management Plan.

5 Harding Street project has been to Planning Board – claims to have settled cold water habitat issue.

When Open Space Plan is done, we will send our info off to MA GIS. We will continue to update maps.

Next Open Space Meeting will be January 13, 2011.

Brian moved to adjourn at 8:45. Mike Renzi seconded. Meeting adjourned.

(Joan Morton recorded minutes.)
